Paper: Computer	Subject, Class, May	(2020) Name:	, ID	:
Theme/Unit	Paper: <u>Compute</u>	<u>er</u>	TIRI IO	Total Marks:48
Theme/Unit	Month Test: May		NOS NOS	Obt. Marks:
Discribed Disc			* SINCE 1993	
Name:			الريب عين	
#1: Circle the correct option 1. A computer is a\an device. a) Auto b) electrical c)electronic d) mechanical 2. Which controls the working of all the hardware and software? a) Keyboard b)motherboard c)processor d)mouse 3. What creates the copy of an image or document? a) Speaker b) scanner c) LEID d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) (ab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d) windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) notherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Flip b) skew c) resize d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c) recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.				
1. A computer is a\an device. a) Auto b) electrical c)electronic d) mechanical 2. Which controls the working of all the hardware and software? a) Keyboard b)motherboard c)processor d)mouse 3. What creates the copy of an image or document? a) Speaker b) scanner c) LED d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c) Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Filip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d) new folder 18 bar moves the view of a programme window up and down, right and left.	Name:	CI	ass:btn	Section:
a) Auto b) electrical c) electronic d) mechanical 2. Which controls the working of all the hardware and software? a) Keyboard b)motherboard c)processor d)mouse 3. What creates the copy of an image or document? a) Speaker b) scanner c) LED d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d) new folder 18 bar moves the view of a programme window up and down, right and left.	2#1: Circle the co	rrect option		1.5*22=33
2. Which controls the working of all the hardware and software? a) Keyboard b)motherboard c)processor d)mouse 3. What creates the copy of an image or document? 3. Speaker b) scanner c) LED d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16. ————————————————————————————————————	1. A computer	is a\an devic	e.	
a) Keyboard b)motherboard c)processor d)mouse 3. What creates the copy of an image or document? a) Speaker b) scanner c) LED d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	a) Auto	b) electrical	c)electronic	d) mechanical
3. What creates the copy of an image or document? a) Speaker b) scanner c) LED d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	2. Which cont	rols the working of	all the hardware a	and software?
a) Speaker b) scanner c) LED d)keyboard 4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	a) Keyboard	b)motherboard	c)processor	d)mouse
4. Which is used to store and retrieve data? a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	3. What create	es the copy of an im	nage or document?	
a) Memory b) motherboard c)processor d) printer 5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d) new folder 18 bar moves the view of a programme window up and down, right and left.	a) Speaker	b) scanner	c) LED	d)keyboard
5. What perform all basic tasks? a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d) new folder 18 bar moves the view of a programme window up and down, right and left.	4. Which is us	ed to store and retr	ieve data?	
a) Word b)paint c)excel d) paint 6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	a) Memory	b) motherboard	c)processor	d) printer
6. What holds a specific group of related commands? a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	5. What perform	rm all basic tasks?		
a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	a) Word	b)paint	c)excel	d) paint
a) Title bar b)ribbon c) tab d) scroll bar 7. Which is storage device for storing and reading data? a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	6. What holds	a specific group of	related command	-
a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.				
a) Drive b) file c)older d)windows 8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15. What change the size of a drawing horizontal or vertical? a) Flip b) skew c) resize d) rotate 16 is used to delete unwanted drawing? a) Pencil b) Erases c) shapes d) ribbon 17. Which is not a desktop icon? a) This Pc b) my document c)recycle bin d)new folder 18 bar moves the view of a programme window up and down, right and left.	•	•	oring and reading d	lata?
8. Which is collection of data and instructions? a) Folder b)file c)drive d) task bar 9. Where are drawing made in paint? a) Corner b)canvas c) colors d) ribbon 10. Which picks a color of a drawing? a) Color b)colors palette c)fill with color d) color picker 11. Which group has a star for drawing in paint? a) Image b)shapes c) brushes d) tools 12. What turns the drawing around the centre point or axis? a) Rotate b)resize c) skew d) shapes 13. What connects the computers components and peripheral devices? a) Monitor b) windows c) processor d) motherboard 14. What provides an interface to interact with a computer? a) Word b) paint c)Taskbar d) desktop 15.
