Class 7th

Objective

Paper Science

T.M 100

Q1: Encircle the correct option

24×2=48

1: we eat the food to get
a) money b) light c) energy d) wave

2: The liver releases--- through the bile duct to duodenum
a) jejunum b) ileum c) bile d) none

3: Many finger like out growths are present in the intestine called?

a) Villi b) liver c) chyme d) pancreas

4: The jejunum is about how long ?

a) 2.2m b) 2.3m c) 2.4m d) 2.5m

5: The remaining part of intestine is called ?

a) bile b) ileum c) villi d) none

6: The undigested food is converted into what form?

a) liquid b) solid c) gas d) none

7: The undigested food is called ?

a) faeces b) villi c) chyme d) none

8: The human body requires what for the process of respiration?

a) hydrogen b) carbon dioxide c) nitrogen d) oxygen

9: More saliva is produced in the mouth during what ?

a) fuel combine b) trachea c) vomit d) larynx

10: Air enters the nose through what opening called?

a) vomit b) nostrils c) vocal cords d) trachea

11: The opening of the larynx is called ?

a) nostrils b) glottis c) bronchi d) diaphragm

12: The larynx is also called ?

a) voice box b) vocal cords c) epiglottis d) none

13: When we inhale air our ribcage moves ?

a) left b) right c) upward d) downward

14: Taking out carbon dioxide from the body is ?

a) inhalation b) exhalation c) respiration d) digestion

15: The upper two chambers of the heart called ?

a) ventricles b) pulse c) heartbeat d) atria

16: A vein carrying deoxygenated blood from the body is

a) vena cave b) aorta c) lungs d) capillaries

17: Anemia is a very common disorder of .

a) liver b) lungs c) veins d) blood

18: Pumping of heart ?

a) pulse b) stomata c) arteries d) heartbeats

19: The throbbing of the artery ?

a) pulse b) stomata c) arteries d) heartbeats

20: Loss of water from the surface of leaves ?

a) transpiration b) translocation c) capillaries d) veins

21: link arteries and veins ?

a) valves b) capillaries c) muscles d) bones

22: The growing plant gets energy from the food stored in ?

a) leaves b) stomata c) bulbs d) none

23: Another form of vegetative propagation is ?

a) tubers b) eyes c) buds d) none

24: Male gametes in plants are called ?

a) carpel b) stomata c) ovary d) sperms

Subjective

T.M = 52

Question:2

write a note on movements of gases .

(6)

Question 3:

With the help of flow diagram explain how the circulatory system work (6)

Q 4: How can coronary artery disease be fatal ? (3)

Q 5: Write difference between xylem and phloem. (6)

Q 6: How The plants grows ?

(3)

Q 7: Briefly explain the pollination.

(8)

Q 8: Write a note on ASTHMA and PHEUMONIA.

(6)

Q 9: Explain the transpiration pull and translocation.

(6)

Q 10: Explain the structure and function of the HEART.

(8)
